

## FACIAL ECZEMA AND HEAT STRESS PROTECTION

Fight  
Facial  
Eczema

ESSENTIAL  
MINERALS

EASY  
DISTRIBUTION

NO  
ANTIBIOTICS

SCIENTIFICALLY  
REVIEWED

### OPTIMATE™ PROTECT HELPS WITH

- Aid in prevention of facial eczema
- ACVM Registered Zinc Oxide, No.A011756
- Minimise the impact of heat stress

### WHY USE OPTIMATE™ PROTECT?

- Simple to use dispersible granules
- Includes zinc oxide to aid in the prevention of facial eczema
- Includes supplementary magnesium, calcium and phosphorus
- Includes organic source of Chromium to help improve glucose use and reduces the negative impacts of heat stress

### DIRECTIONS FOR USE

- Feed Optimate™ Protect via silo, mixer wagon, in-shed feeder or on feed pads
- Suitable with maize and grass silage dairy meal, dairy blends
- 300 grams per day per cow (500kg liveweight)
- Suitable for use on Lactating Dairy Cows

- Do not exceed the recommended dose rate. Knowing animal liveweight is important as for zinc to be effective it needs to be administered at 2.75g of Zinc Oxide per 100kg liveweight
- For best results start regular Zinc treatment two weeks before conditions normally occur until cooler winter conditions (Dec to April)

### WHAT IS OPTIMATE™ PROTECT?

- **Optimate™ Protect** has the added benefit of ACVM registered zinc oxide to help fight off Facial Eczema.
- **Optimate™ Protect** has a special blend of macro minerals designed by Nutritionists and scientifically proven to keep your herd going through the summer months.

### INGREDIENTS
